City Holdings • Mulgrave VIC 3170

 Base pay  
\$0 - \$0

 Work type  
Full time

 Contract type  
Permanent

### Full job description

City FM Australia provides world-leading facilities management and engineering solutions that ensure safe, successful and sustainable outcomes for our partners.

### The Opportunity

This role offers an opportunity for a skilled and proactive individual to work as a Technical Training Manager within the City FM's People & Safety Team. The successful candidate will be responsible for developing and maintaining training for our field operations teams nationally.

### The Role:

- Developing and maintaining National Technical Training Plans for field operations teams across the business.
- Delivering consistent management oversight of technical training to ensure that training undertaken adds value to the business and is cost effective.
- Maintaining compliance with legislative requirements in relation to training, assessment and records management.
- Improving and maintaining the quality of training and training delivery methods, efficiency, cost effectiveness and compliance.
- Maintaining the currency of competency requirements and career paths to support structured development and ensure that unnecessary training is not undertaken.
- Effectively building the required competencies in our workforce now and in the future.
- Ensuring where applicable that government subsidies available for Vocational Training are utilised.

### To Be Considered:
